ShipRite Update 10.17.1

Time to Download: **25-40 Seconds**. Time to apply update: **4-15 minutes** depending on database size. It is recommended you download this at the end of day, and not as you arrive for work, unless you get to the center at least 1 hour ahead of time.

To LOAD the UPDATE

1. Backup your ShipRite database. You should be backing up DAILY. If you are not, please go to www.shipritesoftware.com/FAQS and download, then apply the backup procedure.
2. Click [<<HERE>>](#) to download the update.
3. SAVE to your desktop. Double click on the file name: Update_10.17.1.exe
4. Click NEXT to start the loading process, then FINISH to finish the installation.
5. Next you will receive a message that the ShipRite Dot Net 3.5 needs to update. Go ahead and click YES and continue until done. Click CLOSE when done.
6. Start the ShipRite Program from the normal icon. You will get a message that X number of Database fields were added. This is normal. You will be required to restart the program again.

Once the ShipRite Main Menu screen pops up, you are updated.

What's New:

1. Quickbooks Online Integration: This version loads all the files necessary to integrate with Quickbooks Online. If you wish to begin integrating with QBO, please contact ShipRite Support.
2. Hide Unused Inventory Items:

View: SKU: Desc: Dept: Show All Show Active Show Inactive Packaging Normal Class: Refresh Clear

Sort: SKU Ascending Descending

A check mark here means you want to SEE the item when Show Active is checked off.

To show active items only, select Show Active.

What's Fixed:

- MailBox create account code doesn't add account to AR table.
- Coupon uses qty of all items on receipt instead of just applicable sku items.
- Don't show DHL Account# when saving DHL Drop Offs.
- Overflow error when value in MaxInvoiceView.txt is too large.
- General acct adjustment fails if AcctName contains apostrophe.
- Don't replace registration info with 'Shiprite Demonstration Company' if there's an error loading it.
- Signature line on receipt should show when charging to account.
- Don't include Status = 'Deleted' payment records in account aging collection.
- Adult Signature disclaimer added to Package Check Out.
- Reason for return to driver was added to Package Check Out.
- List all the packages over 7 days on Check Out for driver in Package Check Out.
- Default Pricing Matrix markup to 60%.
- If Account has Price Level set then use that price level.
- If pricing quantity levels stop short with trailing 0 quantity levels, then use the last non-zero quantity level.
- Can't add additional names during MBX maintenance from POS.
- MailMaster items added to invoice from hold evaluate ExtPrice as 0.
- UPS services will show invalid rate for high weight values due to cached UPS rates.
- Exit if file with the same PackageID already exists during Endicia Web Call (To prevent Endicia Duplicate Labels).
- Check for fuelsurcharge.txt file in DB path and update fuel surcharges if present.
- Download fuel surcharge via HTTP instead of FTP.
- Add ability to hide inventory items.
- Match MST Accessorial charges names with DHL accessorial charges.
- DHL Over Sized Piece charge applies if any dimension exceeds 48 inches.
- DHL Over Weight Piece charge applies if actual weight exceeds 150 lbs.
- Match MST Accessorial charges names with UPS accessorial charges.
- Match MST Accessorial charges names with FedEx accessorial charges.
- Prevent completed invoice# from being put back on hold/quote.
- Old Address used in processing when consignee saved as new in Edit Consignee right-click menu.
- Old Address used in processing when shipper saved as new in Edit Shipper right-click menu.
- MBX form 1583 doesn't print additional names in block 12 anymore.
- 1583 form should print for each additional name.
- PostNet: FedEx Min charge isn't checked after getting carrier discounted cost.
