

ShipRite NEXT Update v10.26.14

This is a Critical Update that must be installed by 7/12/2026.

Overview

- Time to Download: 25-40 seconds.
 - Time to apply update: 15-25 minutes.
 - It is recommended you download this at the end of day, and not as you arrive for work, unless you get to the center at least 1 hour ahead of time.
 - When first opening ShipRite, the top header should read **10.26.14.108** If it does not, please re-download the update.
-
- New July 2026 Rate changes for USPS
 - UPS International Accessorial Surcharge changes

Note: DO NOT wait until the rates take effect to download and install this update. Installing early won't affect your current rates and helps ensure support availability if necessary.

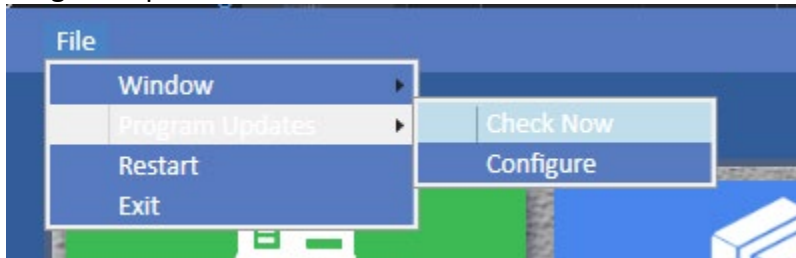

The program will automatically download and apply the new 2026 rates on their specific due dates. As such, the update can be downloaded any time before the rate change takes effect.

On 7/12/2026 open these instructions and go to the "Applying the 2026 USPS rates" section. Follow the instructions for the specific carrier that is due.

*Technical Support will be available Saturday 10am – 3pm EST.
Monday – Friday 8am-8pm EST.*

Installation

1. Backup your ShipRite database. You should be backing up DAILY. If you are not, from the main ShipRiteNext screen click on the Utilities option in the top right corner. Select Backup. Click the option to “Run Backup Now”.
2. The Update has to be done on the server computer with ShipRiteNext closed on all other workstations.
3. ShipRiteNext has automatic updates. When an update is released, a prompt will appear when starting up the program. Please follow the instructions on the screen to install.
4. If the update fails to install or you do not get a prompt, then please click on File > Program Updates > Check Now

5. It's possible that a firewall or anti-virus software blocks the Program Update from being downloaded. If that is the case you can download the update manually from this link:

Click [<<HERE>>](#) to manually download the update.

Run the downloaded update file and follow the prompts on the screen. Once the update is completed, start up the program.

6. Once ShipRite is updated and running on the server, it is safe to open ShipRite on your other workstations.

UPS International Accessorial Surcharge Changes

Go to Setup > Shipping Setup & Pricing > UPS. Select the **WWXPED** Service and go to the “Accessorial Surcharges” tab.

Select each one of the line items below. Update the cost and enter your selling price.

ACCESSORIAL FEE - INTL	Cost	Sell
Remote Area Surcharge (RAS)	\$ 61.00	
Extended Area Surcharge (EAS)	\$ 61.00	
Residential Surcharge	\$ 6.95	

Important: Once all pricing is entered, we need to copy that same pricing to the other international services.

- On the Accessorial List select the above surcharges to highlight them and press “Global Update”.
- In the global update service selection, Select the following services
WWXPED, WWXPRES, WWXSVR, CAN-XSVR, CAN-XPRES, CAN-XPED, CAN-STD
- Press SAVE on the bottom.

Next, select the **CAN-STD** service and update the surcharge below. Click the “SAVE” button on top to apply the pricing.

ACCESSORIAL FEE - INTL	Cost (non-ASO)	SELL
Residential Surcharge	\$ 6.60	

Applying the 2026 USPS rates

On 7/12/2026 check the rate charts and update the accessorial pricing below.

If the rate charts do not match, please verify that you are running version 10.26.14 first.

The version number will be displayed on the top bar of the blue splash screen when the software is first opened.

If you are on version 10.26.14 and the rates still do not match, try restarting your computer for changes to take effect. Finally, if the rates are still not updated, please open a support ticket.

USPS – 7/12/2026

USPS Rates will change automatically on July 12th, 2026. When ShipRite is started up for the first time on or after that date, a message will display that the USPS rates have been loaded.

At that time, please verify that the correct USPS rates have been loaded. Go to Utilities > Rate Charts. Spot check the following tables to ensure that the correct USPS rates are loaded.

USPS-PRI (Priority Mail)

Update USPS First Class Retail Pricing

Go to Setup > Shipping Setup & Pricing > USPS > FirstClass > Markups. The correct costs will already be loaded. Edit the 2 Retail columns and enter in your retail pricing. (SELL-Letter, SELL-Flat). Click “Save” when done.

There have been no changes to USPS Flat Rate Boxes and Envelope pricing.

Update Accessorial Revenue pricing

The accessorial charges are NOT automatically updated and have to be updated manually by the user. Go to Setup > Shipping Setup & Pricing > USPS > USPS-PRI > Accessorial Surcharges. Select each one of the line items, update the cost and sell prices.

ACCESSORIAL FEE	COST	SELL
Certified Mail	\$ 5.55	
Return Receipt	\$ 4.65	
USPS Tracking	\$ 0.00	
Signature Confirmation	\$ 5.15	

Important: Once all pricing is entered, we need to copy that same pricing to the other services.

1. Click the “Select All” Option in the bottom left.
2. Click the “Global Update” button on the bottom right. This will open the Global Update popup.
3. In the Global Update popup, click “Select All” option on the top. This will select all services.
4. Press SAVE on the bottom.

Fixes Included in version 10.26.14
